IN RE:

IMPLEMENTATION OF 2026'S
APPROVED PERMANENT RATE

CASE NO.: NEPR-MI-2026-0005

SUBJECT: Informative Motion Regarding
Compliance with Final Rate Order Directive
Regarding Application to FEMA for Section 406
Hazard Mitigation Funding for the TAShelix
Mobile Platform Implementation Project

**INFORMATIVE MOTION REGARDING COMPLIANCE WITH FINAL RATE ORDER
DIRECTIVE REGARDING APPLICATION TO FEMA FOR SECTION 406 HAZARD
MITIGATION FUNDING FOR THE TASHLIX MOBILE PLATFORM
IMPLEMENTATION PROJECT**

TO THE HONORABLE PUERTO RICO ENERGY BUREAU:

COME NOW LUMA Energy, LLC (“ManagementCo”), and LUMA Energy ServCo, LLC (“ServCo”), (jointly “LUMA”), and respectfully state and request the following:

1. On April 15, 2026, the Honorable Puerto Rico Energy Bureau (“Energy Bureau”) issued a *Final Resolution and Order on Electricity Rates* (“Final Rate Order”) in the matter of *In Re: Puerto Rico Electric Power Authority Rate Review*, case no. NEPR-AP-2023-0003 (“Rate Case Proceeding”). The Final Rate Order includes multiple orders, including for LUMA to submit “an application to [the Federal Emergency Management Agency (“FEMA”)] for Section 406 Hazard Mitigation funding for the TAShelix Mobile Platform Implementation [project] within 90 days of this Order.” Final Rate Order, Chapter III, p. 136.

2. On July 2, 2026, LUMA requested an extension until October 14, 2026, to submit its FEMA Section 406 Hazard Mitigation funding application for the TAShelix Mobile Platform project. *See Motion for Extension of Time to Submit an Application to FEMA for Section 406 Hazard Mitigation Funding for the TAShelix Mobile Platform Implementation Project*. LUMA

explained that the extension was needed because it was not until June 18, 2026 (date when the Energy Bureau issued a Resolution and Order in Case No. NEPR-MI-2021-0002¹ approving the proposed project) that LUMA had clarity on the project's funding source and pathway for FEMA activation, and LUMA required additional time to incorporate COR3's recommendations, coordinate with stakeholders, and structure the project to maximize FEMA eligibility while minimizing risks to the Section 428 funding allocation. *See id.*, pp. 2-3.

3. LUMA herein informs that, in compliance with the Final Rate Order and within the extension requested on July 2, 2026, LUMA submitted today, October 14, 2026, an Application to FEMA for Section 406 Hazard Mitigation Funding for the TAShelix Mobile Platform Implementation Project. LUMA submits herein, as *Exhibit 1*, evidence of the electronic filing of this document with FEMA. *See Exhibit 1*.

WHEREFORE, LUMA respectfully requests that the Energy Bureau **take notice** of the foregoing and **deem** LUMA in compliance with the Final Rate Order with respect to the filing of an Application to FEMA for Section 406 Hazard Mitigation Funding for the TAShelix Mobile Platform Implementation Project.

RESPECTFULLY SUBMITTED.

In Guaynabo, Puerto Rico, this 14th day of October 2026.
