

**GOVERNMENT OF PUERTO RICO
PUERTO RICO PUBLIC SERVICE REGULATORY
BOARD ENERGY BUREAU**

IN RE: IMPLEMENTATION OF THE PUERTO RICO ELECTRIC POWER AUTHORITY INTEGRATED RESOURCE PLAN AND MODIFIED ACTION PLAN

CASE NO.: NEPR-MI-2020-0012

SUBJECT: Request for Information regarding Proposed Amendment to the Marisol Power LLC PPOA

RESOLUTION AND ORDER

On September 16, 2026, the Puerto Rico Electric Power Authority ("PREPA") filed before the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") a document titled *Motion for Approval of Proposed Amendment No. 1 to the Marisol Power, LLC Power Purchase and Operating Agreement and Memorandum of Law in Support of Request for Confidential Treatment* ("September 16 Motion"). Through the September 16 Motion, PREPA requested approval of a proposed amendment to the Power Purchase and Operating Agreement ("PPOA") allegedly executed between PREPA and Marisol Power, LLC ("Marisol Power") on May 26, 2026.

According to the September 16 Motion, following execution of the PPOA, Marisol Power requested additional interconnection studies to evaluate the feasibility of increasing the Project's photovoltaic generating capacity beyond the originally contemplated 40 MW. PREPA stated that LUMA Energy, LLC and LUMA Energy ServCo, LLC (collectively, "LUMA") completed the applicable interconnection studies and determined that the Project's Maximum Dispatch Limit could be increased from 40 MW to 58 MW without requiring additional transmission system upgrades. PREPA further indicate that an increase beyond 58 MW, up to 84 MW, would require certain transmission system upgrades identified by LUMA.

The proposed amendment seeks to increase the Maximum Dispatch Limit from 40 MW to 58 MW, replace Appendix H (Facility Site) and Appendix K (Operating Characteristics), and establish conditions for potential future capacity increases.

To complete its evaluation of the proposed amendment, the Energy Bureau determines that additional information and supporting documentation are necessary.

Accordingly, the Energy Bureau **ORDERS** PREPA to submit, within ten (10) days from the date of notification of this Resolution and Order, the following information and documents:

1. *Executed PPOA.* A complete copy of the PPOA executed between PREPA and Marisol Power on May 26, 2026, including all appendices.
2. *Interconnection Studies.* Copies of all interconnection studies performed by LUMA in connection with the Marisol Power Project, including the studies referenced in the September 16 Motion supporting the proposed increase in the Maximum Dispatch Limit from 40 MW to 58 MW and evaluating the potential increase to 84 MW.
3. *Commercial Operation Date.* An explanation of whether the proposed increase in the Project's Maximum Dispatch Limit from 40 MW to 58 MW would affect or delay the Commercial Operation Date ("COD") established under the executed PPOA.
4. *Additional Supporting Documentation.* Copies of any other technical studies, analyses, reports, evaluations, or supporting documents exchanged between or relied upon by PREPA, Marisol Power, or LUMA in evaluating, negotiating, or supporting the proposed amendment, other than the interconnection studies requested above.

The Energy Bureau **WARNS** PREPA that, in accordance with Art. 6.36 of Act 57-2014¹, non-compliance with this Resolution and Order may carry the imposition of fines.

Be it notified and published.

CERTIFICATION

I certify that the majority of the members of the Puerto Rico Energy Bureau agreed on October 22, 2026. I also certify that on October 22, 2026, I have proceeded with the filing of this Resolution and Order and was notified by email to nzayas@gmlex.net; mvalle@gmlex.net; alexis.rivera@prepa.pr.gov; rcruzfranqui@gmlex.net; katiuska.bolanos-lugo@us.dlapiper.com; Yahaira.delarosa@us.dlapiper.com; laura.rozas@us.dlapiper.com; RegulatoryPREBorders@lumapr.com; jfernandez@ecija.com, legal@genera-pr.com, regulatory@genera-pr.com.

I sign this in San Juan, Puerto Rico, today October 22, 2026.
