Greetings Carlos and NFE team,

Hope all is well. We kindly request to have an update on the following:

- Current terminal and sendout conditions, estimated time of consumption of vessel inventory and forecasted next vessel swap schedule.
- Readiness to perform San Juan unit 5 fuel swap to natural gas (unit remains using diesel, pending confirmation from NFE of terminal readiness to perform fuel swap.)
- ISO's inventory

- Information about any limiting or shutdown conditions of the supply infrastructure that requires an ISO only supply to the San Juan TM's (since October 15).

Thanks for your prompt attention and support.

Regards,

From: Jose L Carrasco Arroyo <Jose.Carrasco@genera-pr.com>

Greetings Carlos and NFE team,

Hope all is well. After review of the October 15, 2026 delivery records for the San Juan TM units, it was noticed that the supply of natural gas to the 3 TM units that were operating was performed exclusively via ISO's, rather than from the main supply header, which also feeds San Juan unit CT6. We appreciate your support in providing information about any limiting or shutdown conditions of the supply infrastructure that caused an ISO only supply to the TM's and whether the condition still present or was resolved.

Thanks for your prompt attention and support.

Regards,

Greetings Carlos and NFE team,

As per our conversations earlier today, the Amur River completed today, 10/13, its inbound traffic to the San Juan dock/NFE MFH terminal. We kindly request from your team to please provide an update on the progress of berthing activities and terminal readiness, and forecast of expected timeframe to commence natural gas sendout.

Thanks for your support.

Good afternoon, Jose & Genera,

As an update, we regret to inform that due to wind conditions the AMUR RIVER Inbound previously scheduled for today at 1130hrs LT was cancelled by the SJBP. We are looking for other options for inbound operations which will be updated once we get all confirmed.

On the Iso Container inventory, we have the same five (5) Tanks available for your TM Units.

Will keep in touch.

With Kind Regards,

Good afternoon Jose and Genera Team,

Currently we are working on the required arrangements to receive the AMUR RIVER tomorrow. She is scheduled for 1130hrs but we are doing our best to try to get an earlier time.

On the inventory request, we still have five (5) Iso Tanks available (4,000MMBTu)

Will keep in touch.

Greetings Carlos and NFE team,

We kindly request to have an update from NFE about the following:

- Update about the Amur River or any other incoming LNG vessel.
- Regarding cited NFE's prior response on this matter to P3 and 3PPO, as mentioned on 9/26 communication, we kindly request your support by forwarding the referenced notification, for the sake of clarification and proper reference.

- Regarding terminal conditions, please provide current inventory of ISO's.

As always, your support in keeping us posted is very well appreciated.

Regards,

Good afternoon Jose and Genera Team,

Today, Master of the Vessel informed our team that the *Amur River* is currently en route to the Dominican Republic to replenish essential crew supplies and is expected to return offshore of San Juan by Tuesday at approximately 0900 hrs.

Regarding your second question, please refer to NFE's prior response on this matter to P3 and 3PPO, which I understand you were copied.
I will keep you informed of any material development.

Best regards,

Greetings NFE team,

We request your support in providing the NFE San Juan Terminal Update as of today, September 26, 2026.

Given the natural gas sendout stoppage since 9/16 12:45 LT, and no natural gas supply available for the units covered under the GSA, except for a remaining extremely limited number of ISO's available, a quantity to be confirmed, we kindly request to please provide information on the following:

- Updates about the Amur River inbound traffic.
- Any coordination or arrangements being performed by NFE towards making natural gas available and to resume sendout promptly.

Your prompt attention to this matter is very well appreciated. Thanks for your support.

Subject: RE: NFE San Juan Terminal Update - 2026SEPT24@1200HRS

Greetings NFE team,

Acknowledging receipt. Given the natural gas sendout stoppage since 9/16 12:45 LT, and no natural gas supply available for the units covered under the GSA, except for the remaining extremely limited number of ISO's available, five (5) as of most recent update, we kindly request to please provide information on the following:

- Updates about the Amur River inbound traffic, being shown as TBC.
- Any coordination or arrangements being performed by NFE towards making natural gas available and to resume sendout promptly.

Your prompt attention to this matter is very well appreciated. Thanks for your support.

Regards,
