GOVERNMENT OF PUERTO RICO
PUERTO RICO PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU

IN RE: INTERCONNECTION REGULATIONS	**CASE NO.:** NEPR-MI-2019-0009 NEPR-MI-2018-0008 **SUBJECT:** Notice of Revised Schedule

RESOLUTION AND ORDER

I. Relevant Background

On July 13, 2026, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order ("July 13 Resolution") containing a Draft Distributed Generation and Microgrid Interconnection Regulation ("Revised Preliminary Draft"). Through the July 13 Resolution, the Energy Bureau invited all stakeholders and interested persons to provide their comments and feedback on the Draft Regulation on or before August 14, 2026, and scheduled two (2) Virtual Stakeholder Workshops for August 25, 2026, and September 21, 2026, to evaluate and address stakeholders' comments on Revised Preliminary Draft and seek consensus and solutions that are aligned with public policy.

On September 15, 2026, the Energy Bureau issued a Resolution and Order ("September 15 Resolution") containing the agenda for the September 21, 2026, Virtual Stakeholder Workshop and provided a rulemaking schedule with preliminary dates for the second draft of the Interconnection Regulation, public comment opportunities, and the fourth stakeholder workshop.

On October 16, 2026, the Energy Bureau issued a Resolution and Order ("October 16 Resolution") containing the Second Draft of the Distributed Energy Resources Interconnection Regulation ("Second Draft") and invited all stakeholders and interested persons to provide comments on or before November 6, 2026.

II. Revised Rulemaking Schedule

In response to the October 16 Resolution, the Energy Bureau received fourteen (14) sets of comments on the Second Draft. The Energy Bureau appreciates the time stakeholders spent evaluating and commenting on the Second Draft. Considering the number of comments and the complexity of the issues therein, the Energy Bureau requires more time to fully consider these comments and produce the final draft of the regulation.

For these reasons the Energy Bureau **MODIFIES** the rulemaking schedule as included in the September 15 Resolution as follows:

December 7, 2026	Notice of proposed regulation issued
January 6, 2027	Comments on proposed regulation due
January 7, 2027	Completion of regulatory mandate pursuant to Joint Resolution #5-2026
TBD	Adoption of final regulation
